

Worthing Pathfinder Staying Well Workers

Sessional roles available

We are providing an evening and weekend crisis prevention service in central Worthing and are looking for experienced, enthusiastic, and resilient mental health workers to help us run it.

The Staying Well service offers a safe and supportive out-of-hours service specifically aimed at individuals who are struggling to cope when other mental health services are not available. This will include individuals where regular or frequent mental health crises are a feature of their on-going mental health needs and where having a safe place which they can choose to attend will help to prevent them needing NHS urgent care services.

The service will operate during the week from 5pm-10.30pm and from 12 noon-10.30pm at weekends.

Staying Well shift leads will take responsibility for leading the operation of the service whilst on duty. They will oversee the running of each shift ensuring that individuals accessing the service are effectively supported to stay safe and benefit from being in the environment. This will include direct work with individuals as well as overseeing the work of peer support staff and volunteers.

More information about shift hours and expectations is provided in a briefing within the application pack. This post is subject to an enhanced DBS check.

For application pack, please go to our website www.westsussexmind.org

Further information for applicants and completed applications should be emailed to:
recruitment@westsussexmind.org

The vacancy will close when we have received a sufficient number of applications so we encourage you to apply at your earliest convenience.
